

## **DCS008: Project**

**Project on Assessment Planning for the complete course:** The project is designed such that a teacher or evaluator is able to prepare his/ her assessment plan for the whole course when or where ever required. The teacher in provided the ease to enter his/her subject code with description. Then multiple and possible assessment strategies are shown to teacher. The teacher now selects the best suited strategy and enters the marks and number of assessments of a particular type. The system then checks for the complete cent percent weightage. If confirmed, the teacher then submits the final assessment plan and a PDF file for the same is generated. The final outcome is: the teacher at the end receives the summarized form of the assessment strategies along with the marks distribution or weightage, that he/ she wants to implement his/ her subject.
